## EDUCATION

**Bachelor**  
Computer Systems Engineering  
Universidad Iberoamericana Puebla  
Aug 2020 – Dec 2024  
Excellence Scholarship  
Ceneval Price

## LANGUAGES

Spanish – Native Speaker  
German – C2  
English – B2

## TECHNICAL SKILLS

Web Application Development  
Object-Oriented Programming  
Embedded Systems

## GENERIC SKILLS

Collaborative  
Proactive  
Responsible

## EMPLOYMENT HISTORY

### IT Intern

*Fisair American Manufacturing | May 2023 – Jul 2023*

- I developed a mobile application using React 18, Ionic 5, and Capacitor for generating internal reports, improving the process by allowing report management at any time and reducing response times.
- I continued the project as an independent professional after my time at the company ended.

### Software Development Intern

*Acceso Directo XUBE S. de R.L. de C.V. | Aug 2023 – Dec 2023*

- Coordinated part of the design, technology selection, and development of a human resource management system.
- Developed the backend using PHP with Laravel 10 and MySQL for the database.
- Assisted in staff training by teaching my team the use of new technologies and best programming practices.

### Software Development Intern

*MEXabat | Jan 2024 – Jan 2025*

- Participated in internal RPA projects using various platforms such as Automation Anywhere, Blue Prism, and UiPath, as well as automation with Python and libraries like Selenium v4 and Pandas 2.2.
- Contributed to the creation of an internal Python framework to streamline development in the AI department and research new technologies.
- Completed an ABAP course and later worked on a client project as part of the development team.

### Independent Professional

*Aug 2023 - Current*

- Develop projects for personal clients, leading a small team.
- Created hybrid applications using React Native with Expo 52 and websites with Astro 4 and Tailwind 3.
